OBJECTIVE

I seek challenging opportunities where I can fully use my skills for the success of the organization.

EXPERIENCE

Sunlife Financial

Claim Analyst

Senior Process Associate in Sunlife.

2018 -

Present

I am working in Sunlife Financial as a Medical Senior Claims Analyst. Handle Medical services claims for Canadian Members. Services like Paramedical and Drugs. Here we received the bill copy of expenses and we enter all the relevant information in our Database software called CHESS. Before pay or deny any claim we follow all the guidelines for each claim and then realise the claims.

Script Project

Script Project is very major Project. Project related to Provider Maintenance related to Drugs services like: Cost of the Drug, Type of Drug, Provider of Drug, Drug Covered under Member Plan or not, Check specific Codes for each Drug and Name and Quantity of Drug.

In this project I worked Directly with On-shore partners of Canada. On Daily calls, I provide the regular updates to team and partners, percentage of work completed and give suggestions and ideas to help in project.

Express Script of Canada ESC is software in which I worked as a Migration Team Tester. In this project, project team Designed Performance Test plans , Execution of test cases, track the test cases and check the result and manage the defect test cases is major task.

I Lead this Project for 1 year with 7 people's team.
