ABHINAV BHARATA
Mulesoft Developer
Ph.: +91- 8712166476

Email: abhibharat647@gmail.com

Professional Summary:

- ➢ Around 4 years of professional work experience related to Information Technology.
- ➢ 2 years of experience in the development of application using Mulesoft, XML, Web services, SOAP, RESTful technologies.
- ➢ Experience on Mulesoft 4.x Cloud Hub and Anypoint platform.
- ➢ Experience developing on the Mule platform to deliver REST based APIs.
- ➢ Used Sub-flow, Async, For-Each, Until Success and Target Variable.
- ➢ Used APIkit router, Transformation Message, JSON Logger.
- ➢ Experience with 4.x Error handling like On Error Continue and On Error Propagate and Try Cache.
- ➢ Experience in Developing Anypoint flows from RAML file using Mulesoft API definition.
- ➢ Experience in developing RESTful web services with Mule.
- ➢ Experience in Data Weave Language to access and evaluate the data in the payload, properties and variables of a Mule message.
- ➢ Participate in Unit testing and writing the Munit Test cases for the flows.
- ➢ Utilize various connectors such as Salesforce, VM, HTTP REST connectors
- ➢ Used AGILE methodology and participated in SCRUM meetings.

Education:

B.Tech in Computer Science & Engineering: VARDHAMAN COLLEGE OF ENGINEERING(VCE HYDERABAD) from 2013-2017.

Certifications:

Mulesoft Certified Developer - Level 1 (Mule 4)

Technical Skills:

Operating Systems	:	Windows
Middleware	:	Mule 4.3, Data Weave language 2.0, Cloud Hub
Testing Tools	:	Munit, Postman, SOAP UI, Test rail
Code Repository	:	GitLab, GitHub

Professional Experience:
Bizmatic Solutions Private Limited   **July 2021 – Till Date**

Software Engineer/Mulesoft Developer
Title: Credit Repair (Finance)

Credit Repair is an USA based Financial Company, which provides services to customers to improve their credit score based on credit repair actions provided by **Equifax, TransUnion, and Experian** credit agencies.
Mule 3 to Mule 4.3 Migration:
Credit Repair application **PBS (Product Billing System)** module developed on Mule3, which Migrated into Mule 4.3 and integrated with Salesforce Cloud. We have used other third party billing systems Like Aria Systems, MX Services and Credit Report agencies Equifax, TransUnion, Experian to get Credit Repair customers Subscriptions, Billing related data.

Roles & Responsibilities:
- Worked on Agile based iterations and involved in Sprint grooming and Sprint Retro sessions.
- Developed Mule APIs based on the API – Led architecture.
- Worked on different Mule4 components like HTTP Rest Services, Salesforce, and Anypoint MQ.
- Worked on Business Data transformations using Mule Data Weave 2.0.
- Using API Led connectivity Architecture, Developed System APIs (REST) and consumed through Process APIs.
- Implemented Error handling using On- Error continue, On-Error propagate and Try Cache.
- Involved in User story based Sanity testing with QA team.
- Involved in Code review sessions with Client POD leads and made code changes as per POD leads code review comments.
- Involved in Bug fix for Dev, QA env and for SIT with Client QA team.
- Check the Loggers info from Cloud Hub to fix the Bugs.

Environment: Mule Anypoint Studio, Mule 4.3, CloudHub, Data Weave 2.0, Mule 3, Aria Systems, SFDC Cloud.

Bizmatic Solutions Private Limited   **Jan 2020 – June 2021**

Software Engineer/Mulesoft Developer
Title: Vault viewer & Automated Customer Communication (ACC)
    Automated Customer Communication (ACC) aims to improve customer experience by automating information campaign regarding Maynilad's water maintenance activities. The goal is to proactively and effectively provide information on interruptions caused by planned, unplanned, or recurring activities.
    Document Viewer provides users with a secure online view of documents stored in the Engage One Vault repository. Through Document Viewer, end customers and business support personnel can search for, retrieve, and view a variety of documents including account statements, contracts, policy materials, and other documents archived in the repository.

Roles & Responsibilities:
- Developing Mule APIs based on the API – Led architecture.
- Worked on the different components in Mule4 like SFDC, File, Transform Message, and for-each components.
- Worked in Data weave to transform the basic and complex data format in the required format. Implement effective coding practices to ensure best code quality.
- Developed and consumed REST web service and exposed APIs.
- Developed synchronous and asynchronous flows and routing messages based on conditions.
- Implemented and handling messaging exception in flows, creating and using exception handlers like On-Error-Continue and On-Error-Propagate.
- Prepared Test cases and Testing Application using Munit and Postman
- Performed testing on each flow that was developed using Munit, Postman.

Environment: Mule Anypoint Studio, Mule 4.2, CloudHub, Web Services, SFDC Cloud.

Bizmatic Solutions Private Limited   **June 2018 – Dec 2019**
